SPORT COMFORT FIT

Low cut street riding boot, giving ultimate flexibility and uninhibited ankle movement, while retaining comprehensive foot protection and riding performance technology. -- Similar in specification to the S-MX 4 full-length boot, the S-MX 2 is designed to retain flex without the need for the extended upper. -- Designed to be used in conjunction with Alpinestars exclusive street knee/shin protector. -- High tech microfiber upper with a low-cut front and extra low Achilles cutaway, ensure the boot is both comfortable and allows maximum, natural, ankle movement. -- Streamlined road boot buckle closure with micro adjustable strap give security and accurate individual fit. -- Inner side zipper, with Velcro® over flap closure, make entry and exit highly convenient. -- Internal grip pad at base of heel ensures security and foot control. -- Re-enforced heel and toe protection. -- Heel protection detail and toe shifter pads -- Replaceable TPU toe-sliders. -- Molded rubber sole with internal shank for rigidity and protection. -- A 100% waterproof version is available with a fully protective and breathable membrane (available in black only).
