Contoured shin plate protector is injected with high modulus TPU for a high level of impact and abrasion resistance. -- Reinforced leather plate on the back of the boot. -- Extended inside and outside plate guards the side and toe-box area of the boot. High grip design is injected with medium hard PU for excellent support and side contact. -- Shock absorbing padding on the ankle. -- Internal plastic reinforcement on the inner side of the boot is covered by thick stamped Suede for increased grip and heat resistance. -- Stitched instep flex zone. -- Action Leather upper. --

Alpinestars exclusive all-terrain high grip rubber compound sole with a contoured stainless steel shank and steel sole guard. -- Four buckles with memory featuring a quick release/locking system. Buckles are injected with high impact resistant technopolymer. -- Top of the boot is sealed with velcro and stretch PVC coated fabric. -- Polyester fabric lining coupled with multi-density EVA. -- Removable anatomic footbed. -- Extended gaiter helps prevent water entry. -- The TECH 3 ALL TERRAIN boot is CE certified.
