

335 018 19 silver

335 018 11 dark gray

SUPERTECH SUIT

AUTO RACING / SIZE: 44-60 EUR

-- Complies with FIA 8856-2000 and SFI 3.2 A/5 homologation standard. -- 3-layer construction, designed to give distinct, slender look, with pre-curved arms and legs to provide comfort in the driving position -- Outer layer combines Alpinestars L&G and Ripstop fabrics to give a supremely light and breathable surface. The L&G fabric is made up of a mix of Nomex® and Carbon for ultra-light weight and excellent fire resistance, while Alpinestars Ripstop fabric gives greater breathability without compromise in heat or flame resistance. -- Mid layer consists of Nomex® felt, providing a highly effective heat transfer protection barrier. -- Internal layer uses Nomex® felt, specifically developed with DuPont. -- Full floating arm

constructed with stretchable knit fabric providing freedom of movement. -- Alpinestars unique shoulder construction with incorporated extraction epaulets, to ensure comfort and functionality with the HANS device. -- Anatomical lumbar telescopic expansion panel provides greater flexibility and superior fit both in and out of the car. -- Developed in F1 to provide ultimate performance and fit with unique fabrics specifically designed to reduce weight and give greater protection. -- Soft collar with knit fabric for supreme comfort. -- Internal flat seam construction to reduce pressure points and improve strength. -- Multi-panel construction specifically designed to give better fit and feel.
